ACR38 CCID Smart Card Reader

Casino Demo Guide

Table of Contents

1.0. Getting Started

1.1. Program Description

This Demo is an emulation of ATM and Slot Machine using ACR38 CCID smart card reader and ACOS card. It is a multi-application cash card where the same card can be used in ATMs and slot machines. The demo program also logs the last ten (10) Debit/Credit transaction history of the card where information such as Date & Time, Transaction Type, and Terminal ID can be retrieved.

1.2. Features

The demo simulates the following applications:

- smart card-enabled ATM application
- smart card-enabled Casino application

1.3. Supported Card Type

ACOS3 Card

## 1.4. Supported Language

English

1.5. Supported Driver Platform

ACR38 CCID PC/SC Driver

1.6. System Requirements

- IBM-Compatible Personal Computer with Intel 800 MHz or higher
- Microsoft Windows 98/ME/2000/XP/2003/Vista
- Resolution must be at least 800 X 600 pixel
- Color quality must be at least True Color (24 bit)
- DPI Settings must be Normal size (96 dpi)

.

2.0. Welcome Screen (Connection Screen)

This is where you're going to set the ACR38 CCID reader connection. Choose the port where the ACR38 CCID reader is connected then click Enter.
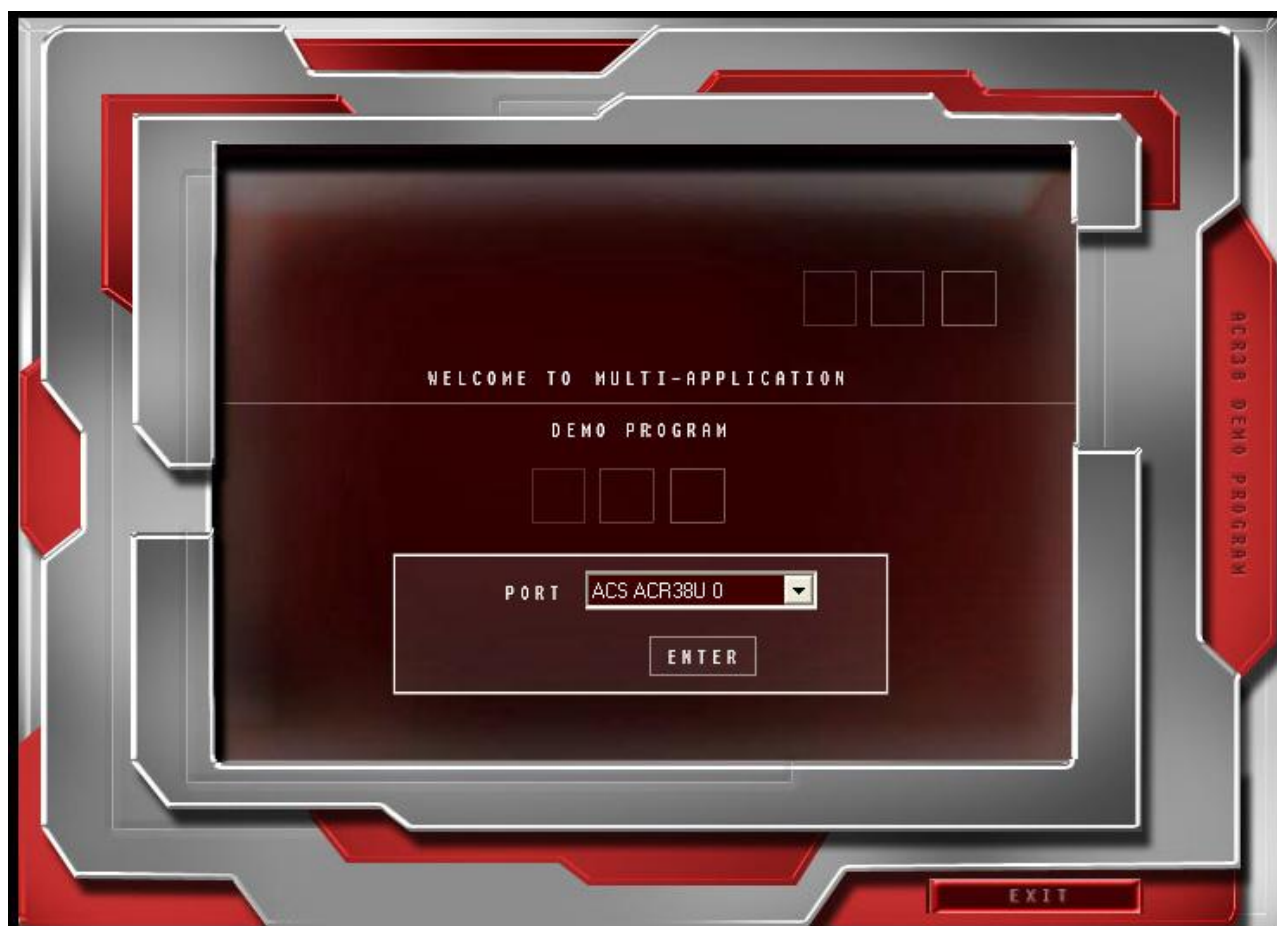

3.0. Main

Through this screen, you can choose to either go to the bank or to the casino.

If you haven't registered a card yet, you should go to the bank where the registration is located. *See Demo Visual Diagram* for applications' location.
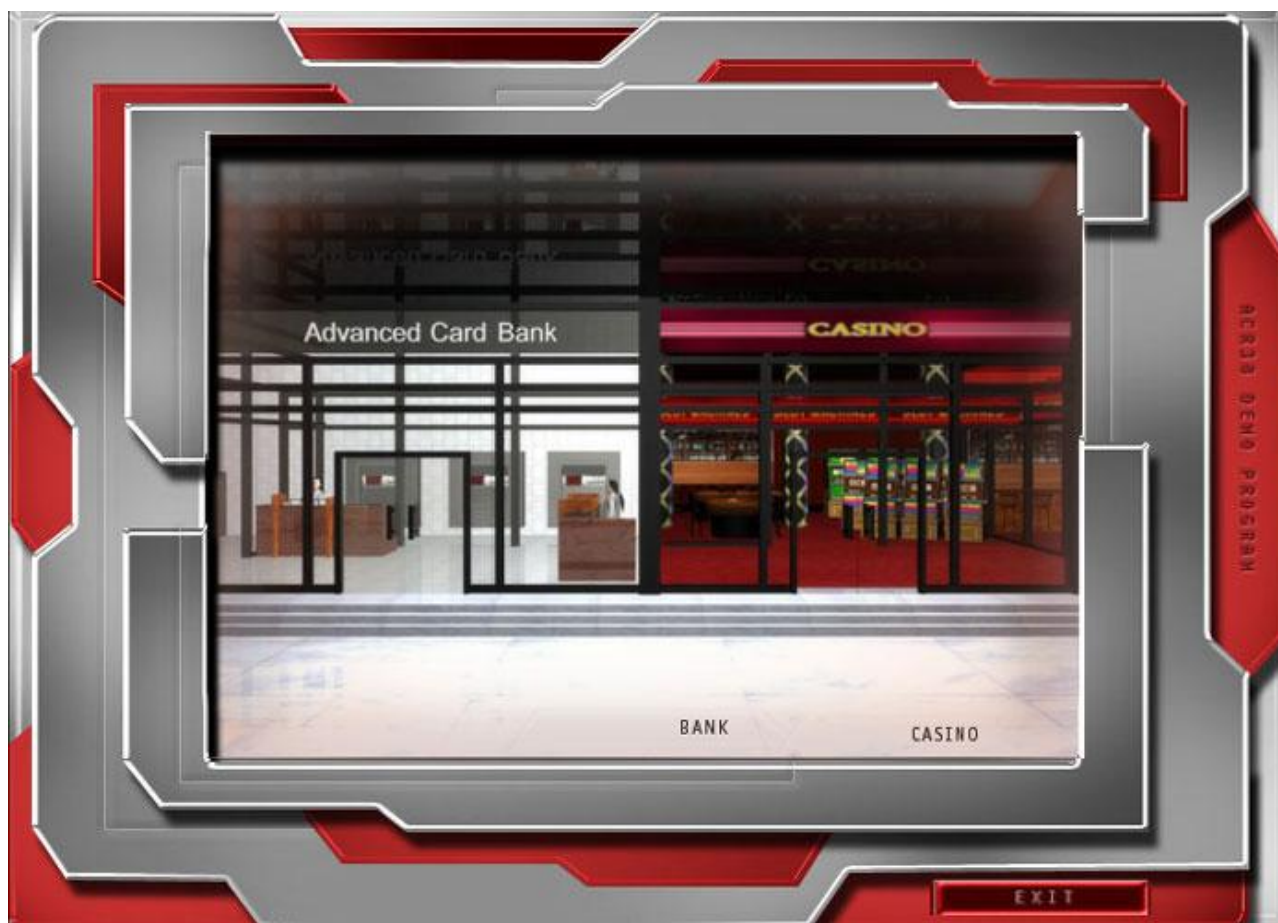

4.0. Bank Lobby

This is the bank lobby. From here you can choose to either go to registration, ATM machine or back to Main screen.

5.0. Registration

This is where you can format and initialize the card to be used in the ATM and slot machine demo. Just fill-up the information sheet and click SUBMIT. You need to register once only and it's set for the demo.

When the registration is done and you need to change the information you entered, modify the entries then click on UPDATE.

6.0. ATM Lobby

This is where you can choose which ATM terminal you want to use.

7.0. ATM Terminal

Insert Card then Enter PIN Code, the default is 1234 and you can change this through this ATM Demo.
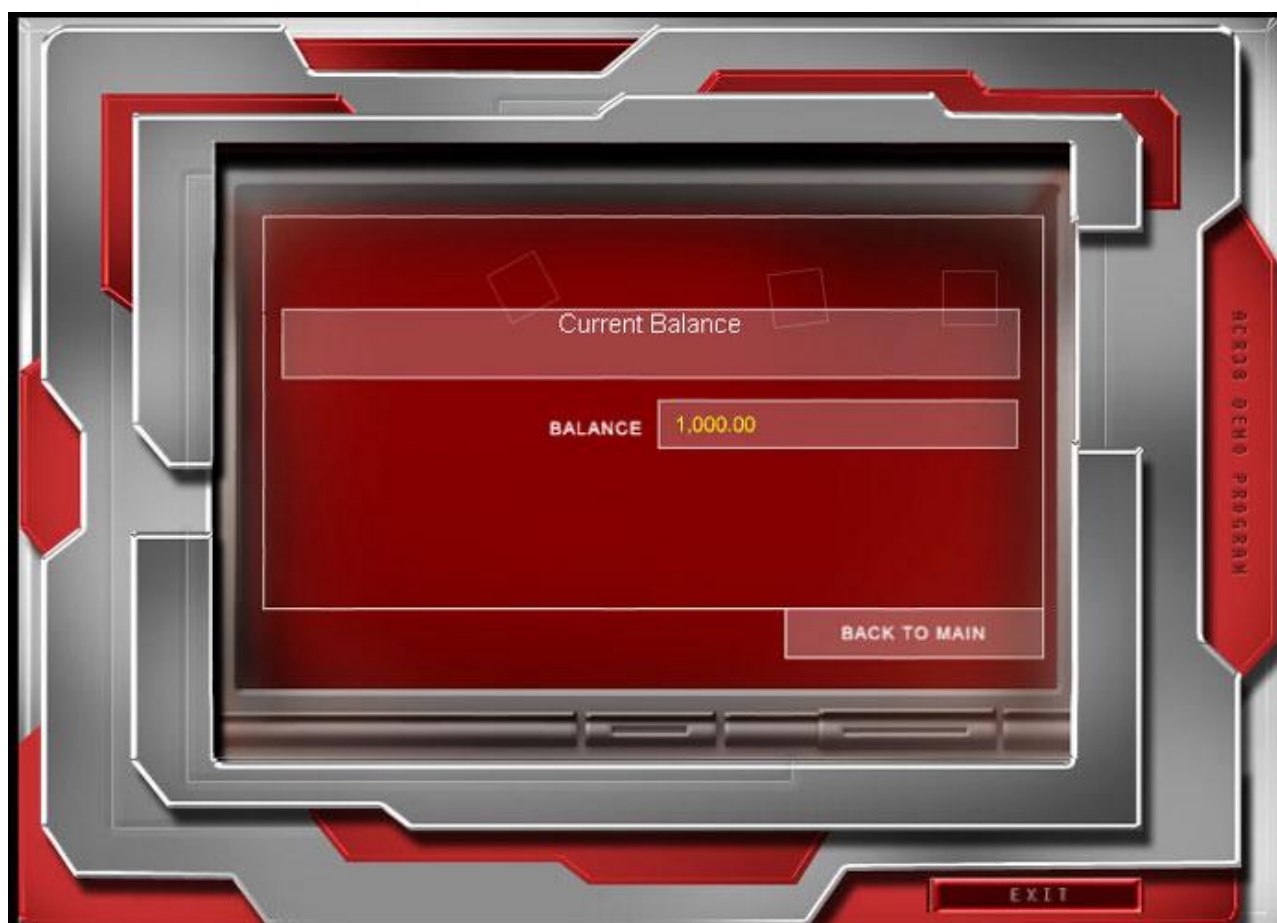

8.0. ATM Terminal Menu

This is the main ATM Menu. Listed here are the possible transactions you can do with this ATM Demo.
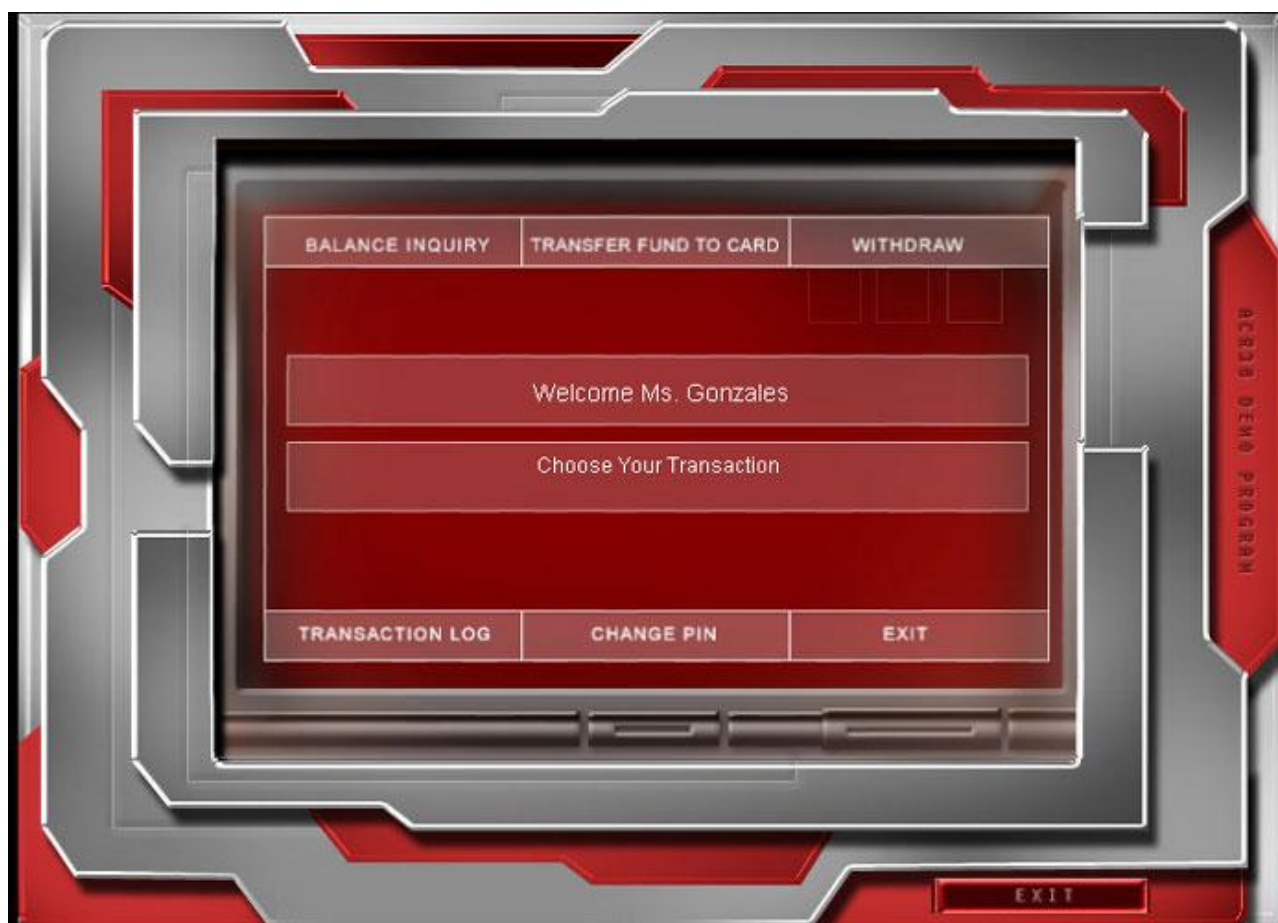

9.0. ATM (Balance Inquiry)

Use this to inquire the current balance of the card.

10.0. ATM (Transfer Fund To Card)

Use this to transfer or add up value to the card. Just enter the amount and click TRANSFER FUND TO CARD.

11.0. ATM (Withdraw)

Use this to withdraw value from the card. Just enter the amount and click WITHDRAW FROM CARD.

12.0. ATM (Transaction Log)

Use this to view the credit/debit transaction history, date, time and terminal ID.
